# ALL BIDDERS PLEASE READ

## **Terms Governing This Sale**

Bidders unknown to us will please furnish bank or other references or deposit 25 percent with their bids, and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 percent over the next highest bid. Numbers in ( ) are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

## **NOTICE TO NEW BIDDERS**

### **Our Mail Sales Are Conducted As Follows:**

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL — IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuation placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. **YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED.** No, you won't receive a nasty letter for returning a coin — instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens, we want it called to our attention to help prevent future errors.

Any lots may be inspected prior to the sale. Collector is liable until received by us. Collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

# IS THIS YOUR FIRST AUCTION CATALOG?

## 25th EDITION (1972) GUIDE BOOK, PAPER MONEY 6th EDITION, "TRENDS" AND OTHER AUCTION RECORDS USED IN CATALOGING

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG).** In the final analysis, you the collector, are the one who sets the price.

**BIDS ARE RECORDED AS FOLLOWS:** Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

**Please allow up to two weeks for receipt of coins; unsuccessful bidder will be notified.**

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING  
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION**

## BARGAINS

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

# YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints (yes we receive some now and then), we want to hear them. Having catalogued over two hundred ninety successful coin sales, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 percent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 11¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

## SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

The date is not visible on this specimen and the corresponding small portion of reverse (top of wreath) weak struck. **RARITY 7 (ONLY 4 TO 12 STRUCK)** compared to rarity 1 (over 1250 struck) of J-180 (Regular 1856 Flying Eagle) which catalogs unc. \$2,000.00. Easily now worth over \$500, although we expect it to rapidly rise in value.
- 9—1858, J-209, Similar but struck in copper, **BRILLIANT** (slightly bluish) **WIRE EDGE PROOF!** Acquired 1960 as "AW-265, Indian Head Type 1859" in copper. Listed by Judd as "Regular dies trial piece", however it was acquired as "**EXPERIMENTAL PIECE TO TEST THE FEASIBILITY OF SUBSTITUTING COPPER FOR THE MORE EXPENSIVE COPPER-NICKEL**". The fact that it was struck with normal uncirculated finish rather than the usual proof finish of the great majority of patterns, was one of the reasons given for this attribution. Acquired 1966 at ..... 350.00

## PATTERN CENTS (Cont.)

- 13—1863, J-299, EXPERIMENTAL PIECE, Regular Indian dies without "L", struck on THIN BRONZE PLANCHET AS LATER ADOPTED IN 1864 (the acceptance of the "Copperheads"—thin bronze Civil War Tokens-in circulation lead the Mint to believe it feasible — as it later was proved). GLITTERING RED & BLUISH WIRE EDGE PROOF! Catalogs \$450 in 2 year old Judd but records over ..... 500.00

## PATTERN NICKELS

## PATTERN TWENTY-CENT PIECE

- 26—1875, J-1414, Regular dies struck in copper, GLITTERING RED WIRE EDGE PROOF! Strong demand for denomination pattern set; also to add variety to solitary design of regular set. Judging from recent prices, any pattern 20c will now bring over ..... 500.00

## PATTERN QUARTER & HALVES

- 27—25c 1870, J-900, Liberty Head wearing coronet with one star & LIBERTY; reverse STANDARD 25 CENTS, silver, GLITTERING GOLDEN WIRE EDGE PROOF! Only 13 to 30 struck. .... 150.00

- 28—50c 1859, J-242, Longacre's Liberty Head with wreath & ribbon; reverse 50 CENTS in cereal wreath, copper, bluish brown with traces of red, tiny nick. Choice specimens worth \$150; this worth proportionately.
- 29—50c 1863, J-340, Regular dies with motto **GOD OUR TRUST** (without scroll) added above eagle, silver, **BLUISH WIRE EDGE PROOF!** Only 13 to 30 struck. Popular ..... 500.00
- 30—50c 1870, J-990, Liberty wearing coronet with **LIBERTY** & one star; reverse **STANDARD SILVER**, bluish-brownish-reddish **PROOF**, 2 pinpoint nicks. Only 13 to 30 struck. A choice specimen worth \$150; this probably worth closer to .... -100.00
- 31—1866, J-541, Regular dies with motto, struck in copper, **GLITTERING BLUISH-REDDISH PROOF!** Listed as Rarity 7 (only 4 to 12) but when it was acquired in 1959 as AW-534, it was described as "5 STRUCK" and the owner then (13 years ago) paid \$125.00. Surely it should now be worth at least as much as the regular 1866 proof (725 struck) which catalogs ..... 375.00

**PATTERN DOLLARS — INCLUDES "UNIQUE" & RARITIES**

- 32—1870, J-1017 INDIAN PRINCESS with 13 stars around flag with 22 stars, "LONG-ACRE" to right of date; reverse regular die, copper, **BLUISH-REDDISH WIRE EDGE PROOF! ONLY 4 TO 12 STRUCK! POPULAR!** ..... 500.00

33—1871, J-1140, Similar obverse except "LONGACRE" name removed (from below base & right of date); reverse **STANDARD 1 DOLLAR** & wreath, silver, **GLITTERING BLUISH & PINK WIRE EDGE PROOF! AS PERFECT AS THE DAY IT WAS STRUCK!** UNPRICED IN FIRST, SECOND, THIRD & FOURTH EDITIONS OF JUDD PATTERN BOOK! LISTED AS R-7 BUT SINCE JUDD EVIDENTLY COULD NOT FIND ANY RECORD OVER MANY YEARS ON WHICH TO BASE A PRICE, WE ARE INCLINED TO BELIEVE IT IS ACTUALLY R-8 (ONLY 2 OR 3 STRUCK)! **A MAGNIFICENT SPECIMEN OF ONE OF THE MOST POPULAR DESIGNS OF ALL THE PATTERNS & OF THE GREATEST RARITY!** What a combination. Probably the most desirable item in this entire sale. If this remarkable specimen were in our regular stock, we doubt if we would have any difficulty placing it at \$5,000.00 or more. Since this sale catalog is mailed to thousands of collectors and dealers, we have no way of knowing what bids will be received. If the interest evidenced in our last November sale (a high proportion of the patterns therein went to dealers at substantially over our estimates — some at close to double) is any criterion, then a number of new records could be set. There are evidently a number of theoretical prices in Judd, particularly in the dollar series as J-1749 (rarity 8, only 2 or 3 struck, listed at \$300) brought \$1,550 in our November sale.

The fortunate new owner should derive a great deal of pleasure in the knowledge that this specimen will elevate an collection to the ranks of a **TRULY OUTSTANDING COLLECTION**. It will be interesting to see what this unusual specimen (in what is generally called "A Chance Of A Lifetime" opportunity) brings.

34—1878, J-1550a, Morgan's famous Liberty Head design which appears to be similar to the accepted design; reverse resembles regular die but has **3 LEAVES INSTEAD OF REGULAR 9 LEAVES, 7 tail feathers, silver, GLITTERING BLUISH SHARP STRUCK PROOF! A MAGNIFICENT SPECIMEN!** The original design before altering to the accepted 9 leaves design. Judd in his 1965 Third Edition elevated this to a **DIFFERENT "TYPE" WITH A DIFFERENT NUMBER** since it had **LARGER STARS & LETTERS** than the other die varieties of J-1550. He did not price it in the Third Edition or the last Fourth Edition. Evidently none have come upon the market on which to base a price. **EXTREMELY RARE!** Undoubtedly worth several times the price of J-1550 (rarity 5, 31 to 75 struck) which catalogs \$400 in the 2 year old Judd but which we recently sold at \$600. While we have no way of knowing what this rarity will actually bring, we feel the popularity of the Morgan design will send it over ..... 1,500.00

## PATTERN DOLLARS — INCLUDES "UNIQUE & RARITIES (Cont.)

- 35—1879, J-1603, Barber's famous "WASHLADY" design, silver, GLITTERING BLUISH GOLDEN GEM PROOF! AN OUTSTANDING & POPULAR RARITY. Acquired from a sale 3 years ago at \$1,550. We feel the present demand will send it over ..... 2,500.00
- 36—1879, J-1613, Regular obverse die, reverse erect eagle, silver, GLITTERING BLUISH GOLDEN WIRE EDGE PROOF! EXTREMELY RARE! POPULAR. Catalogs \$750 in 2½ year old Judd; present value for this popular rarity probably closer to ..... 1,500.00
- 37—1879, J-1626, Barber's GOLOID METRIC DOLLAR, reverse indicates composition; 15.3---G., 236.7---S., 28---C., 14 GRAMS, struck in Goloid metal, BRILLIANT SLIGHTLY GOLDEN WIRE EDGE PROOF! UNPRICED IN JUDD. We note Morgan's Goloid Metric Dollar (J-1631) in goloid is listed in the 2 year old Judd at \$350 (present market over \$500). In the Second Edition Judd (1962) J-1631 was listed at \$225, advancing to \$300 in the Third Edition and \$350 in the Fourth Edition. We have checked all Four Editions of Judd and this J-1626 WAS UNPRICED IN ALL EDITIONS! Surely this rarity worth at least double J-1631, or ..... 1,000.00

## PATTERN COMMERCIAL & TRADE DOLLARS

- 38—1872, Acquired over 4 years ago as "UNLISTED, SIMILAR TO J-1212 BUT 19 STARS IN FLAG, SILVER, REEDED EDGE, BRILLIANT BLUE PROOF. Struck in VERY HIGH RELIEF RESULTING IN THE KNEE NOT BEING STRUCK UP AS SHARPLY AS BALANCE OF THE COIN (the reason why additional specimens were not struck?). \$2,500.00". We note Judd has J-1214 as similar to J-1212 with the exception that it has 13 stars in flag. Perhaps it should be given number J-1213a. The COMMERCIAL DOLLAR reverse is in strong demand, therefore we would not be surprised to see this rarity now bring closer to ..... 5,000.00
- 39—1873, J-1276, Liberty Head wearing coronet with LIBERTY, hair in knot; reverse similar to above except TRADE replaces COMMERCIAL, silver, GLITTERING BLUISH WIRE EDGE PROOF! Catalogs \$400 in 2½ year old Judd but the last specimen we had brought \$475; the present strong demand will probably send it over ..... 550.00

## 1882 UNLISTED COPPER PATTERN \$1

- 40—1882, UNLISTED, acquired 1967 sale as "1882 Regular dies STRUCK IN COPPER, CHOICE PROOF. NOT IN JUDD OR AW. Bought as "UNIQUE" for \$1,500.00". It brought \$1,750 then, 5 years ago. It is indeed a lovely specimen. GLITTERING RED & SLIGHTLY BLUISH WIRE EDGE GEM PROOF! It still remains unlisted in Judd. The present owner derived a great deal of pride and satisfaction in having this "UNLISTED PATTERN". We hope the new owner will also have similar feelings about this remarkable specimen. It is difficult to know what such a piece is "worth" in today's strong market but confidently feel it will bring over ..... 2,500.00

## GOLD PATTERNS

- 41—\$5 1878, J-1574, Barber's lovely design of Liberty Head with flowing hair (fine style) wearing a band inscribed LIBERTY (resembles the Barber Flowing Hair 1879 \$4 Stella); reverse erect eagle with raised wings, BROAD THIN PLANCHET (to prevent extracting and "filling" as was done with the regular smaller but thicker \$5 gold) copper, GLITTERING RED-BLUISH GEM PROOF! Rarity 7 (ONLY 4 to 12 STRUCK!) but EXCESSIVELY RARE TYPE AS THIS WAS STRUCK ONLY IN THE ONE METAL & THE ONE YEAR! The strong demand for types should send this lovely specimen to ..... 750.00

- 42—\$10 1874, J-1374, Acquired 1967 as "Dana Bickford's International \$10 piece, Gold-plated (not J-1373 which is solid-gold and catalogues \$7,500.00) extremely fine. Catalogue value low \$500.00 for J-1374 copper)." The owner paid \$500 for this then. We believe this popular type piece should now exceed ..... 850.00
- 43—\$50 1852, UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO, CALIFORNIA, UNITED STATES OF AMERICA FIFTY DOLLS. around eagle holding ribbon inscribed LIBERTY, 900 THOUS., tiny "KUNER" (engraver) below eagle, uniface obverse impression in brass, uncirculated. The reverse (incused) reveals it was struck several blows with date not aligned with original impression. Acquired 4 years ago at \$860; probably now worth over ..... 1,000.00

### 1836-1839 GOBRECHT DOLLARS

Possibly the most popular of all the "patterns". The beauty of the design and the fact that a number of them actually circulated as regular coins enhance their strong demand. Several varieties are included in the Guidebook as "regular" coins. We note a steady rise in value over the years (which we feel will continue).

- 44—1836 Die Trial of Gobrecht's second die with figures of Liberty thick set and very short neck; details lacking on the rock at Liberty's left, no date or stars, fusible alloy, cracked (as pictured in Judd). Engraver's lines appear in the background. Originally FROM THE GORBECHT ESTATE. Uniface, thin planchet. **ONLY 2 KNOWN!** The pedigree indicates it sold in the late 1950's at \$550 and changed hands again in the middle 1960's at \$1,100; probably now, worth over 1,500.00

### FIRST 1836 GOBRECHT LISTED IN GUIDEBOOK

- 45—1836, The first Gobrecht dollar listed in the Guidebook, **"C. GOBRECHT F." IN FIELD** between base and date, no stars obverse; reverse **Eagle Flying left amid stars, plain edge. ONLY 18 STRUCK! GLITTERING BLUISH PROOF!** A LOVELY SPECIMEN OF THIS POPULAR & GREAT RARITY. The last time the Guidebook had a price on it was in the 17th Edition where they listed this at \$2,500, the "common variety" (1,000 struck) 1836 at \$1,250 and the 1839 reeded edge (300 struck) at \$1,750.00. The current 25th edition omits the price on this one, lists the "common variety" 1836 at \$1,900 and the 1839 (300 struck) at \$4,000.00. In addition to illustrating the fact that rarities have advanced at a much faster rate than the "commoner dates and varieties", the much greater rarity of this (18 compared to 300 of 1839) would surely give this a value of at least ..... 6,500.00

- 46—1836, Similar to above but **STRUCK IN COPPER, GLITTERING RED & BLUE PROOF!** Rarity 8, (Only 2 or 3 Struck!) .Acquired 1967 as "The celebrated Wolfson collection sold in 1963 had the 1804, 1866 no motto and 1870-S silver dollars but **DID NOT HAVE THIS MAJOR VARIETY** (either in silver or copper). (6,000.00)." It brought \$5,100.00. Present value?

### 1836 GOBRECHT STARLESS OBVERSE, STARLESS REVERSE

- 47—1836 **"C. GOBRECHT"** on base, starless obverse, **EAGLE FLYING IN PLAIN FIELD WITHOUT STARS**, plain edge, **GLITTERING BLUISH PROOF! ONLY 2 OR POSSIBLY 3 STRUCK!** Acquired some years ago as "THE RAREST GOBRECHT" at \$10,000.00. Perhaps it is (how much rarer can a coin be except "unique" — which is not claimed by any listed in the Guidebook). We note the second listed variety in the Guidebook with 5 known was advertised on page 13 of the Sept. 10, 1969 Coin World at \$5,900; therefore this rarer variety could very well be worth the \$10,000.00 then paid. It is interesting to note that the 1866 no motto dollar is listed in the Guidebook as "(2 known) Charles Jay Sale 1967 Proof \$15,000.00" What this remarkable Gobrecht will now bring is problematical. This we do know, the opportunity to acquire such an outstanding rarity cannot occur very many times during one's lifetime.

### THIRD 1836 GOBRECHT LISTED IN GUIDEBOOK

- 48—1836, The third Gobrecht dollar listed in the Guidebook (the “commonest” variety). “C. GOBRECHT” on base, no stars; reverse Eagle Flying in field of stars, plain edge, 1,000 struck. POPULAR. GLITTERING BLUISH PROOF! Catalogs 1,900.00
- 49—1836, Not listed in the Guidebook; it is similar to the above except the REVERSE IS INVERTED. Only 600 struck in 1837 after passage of the coinage act on Jan. 18, 1837. GLITTERING BLUISH GOLDEN PROOF! ..... 2,500.00

### FIRST TYPE 1839 GOBRECHT LISTED IN GUIDEBOOK

- 50—1839, The first type of this date struck (no engraver’s name, stars obverse, no stars reverse, plain edge) struck in copper, GLITTERING RED & BLUISH PROOF! Rarity 8 (ONLY 2 OR 3 STRUCK!), the same rarity as the silver. The Guidebook does not price the silver, which on a comparative rarity scale with the last 1839 variety (300 struck, catalogs \$4,000.00) should be worth over \$10,000.00. This choice copper specimen fetched \$3,600.00 when it was offered 3 years ago; present value?

### LAST 1839 GOBRECHT LISTED IN GUIDEBOOK

- 51—1839, The last variety listed, reeded edge, GLITTERING BLUISH GOLDEN PROOF! Only 300 struck. POPULAR. Catalogs ..... 4,000.00

### 1839 GOBRECHT DOLLAR WITH ERROR

- 52—1839, Similar to above except “THINNER PLANCHET ON SMALL PORTION OF EDGE, otherwise AN ABSOLUTELY PERFECT PROOF. Since proofs are carefully made for collectors, the mint carefully checks them so that no errors are sent out. THIS IS THE ONLY MINT ERROR REGULAR PROOF WHICH WE KNOW OF. Pedigree goes back to the New Netherlands Coin Co., who also made the same statement. IN ADDITION, it has an INVERTED REVERSE. The normal coin has a catalogue value for \$3,500.00 (1966) and 300 were struck. THIS ERROR COIN IS UNIQUE. (\$5,000.00). It sold at \$4,100.00 there, 6 years ago. Present value should surely be over .....5,500.00

## 1794-95 HALF DOLLARS IN CHOICE CONDITION

The revised 1970 "Early Half Dollar Die Varieties" by Al. Overton is a great improvement over the first edition published 1967. The addition of a Rarity Rating based on the Sheldon scale as used for large cents is a great help. May we suggest the addition of "Basal Value" and "Condition Census" for the next edition to further increase its usefulness. The collecting of early half dollars by varieties has now become second in popularity to only the early large cents by varieties. We firmly believe that this type of collecting will pay substantial dividends at this early stage, both pleasure-wise and dollar-wise. Prices still are comparatively low in relation to large cents.

70—1794 Variety Overton 106 (0-106) CLOSE DATE (most of this date are wide date) 21 berries, ex. fine with attractive bluish golden patina. RARITY 6 (VERY RARE). Only 13 to 30 total known. Without the obverse die crack pictured in Overton book and equal, if not actually superior, to the specimen there. Presumably, Overton's specimen is "CONDITION CENSUS" which would also make this "CONDITION CENSUS"! The Guidebook lists the "commonest" 1794 at \$550 fine and nearly double at \$1,000 for v.f. Using the same ratio, an extremely fine specimen should be worth nearly double the v.f. or about \$1,900.00 for E.F. The "commonest" 1794 is the Wide Date 0-101 variety RARITY 4 (VERY SCARCE) 81 to 200 known. Surely this "VERY RARE" 0-106 variety in "CONDITION CENSUS" worth over ..... 4,000.00

71—1795 Variety Overton 107a (0-107a) 8x8 berries, BISECTING REVERSE DIE CRACK, very fine and sharp (bought as "Extra Fine") bluish golden. RARITY 6 (VERY RARE). Only 13 to 30 total known! FAR SUPERIOR TO THE VERY GOOD SPECIMEN PICTURED IN OVERTON! Presumably, HIGH UP IN CONDITION CENSUS! The "commonest" 1795 catalogs v.f. \$525 which would make a "very fine and sharp" worth at least \$650. A Rarity 6 should be worth at least double or \$1,300. Using Dr. Sheldon's scale of "Condition Census" ("first half dozen but not among the first three" value it times 1½) gives it a value of \$1,950. If 2nd best known value it times 2½ (\$3,250); or if 3rd best (which we feel is a safe estimate) value it times 2, or ..... 2,600.00

RECHECK YOUR BIDS --- AVOID ERRORS

72—1795 Variety 0-109, 9x8 berries, “spiked top right berry”, **UNCIRCULATED, SHARP STRUCK WITH EDGE SEGMENTS BOTH SIDES DEEP AND SHARP!** A choice evenly struck specimen with stars better struck than on over 95% of all 1795’s we have seen of all varieties during our 39 years as professional numismatists! **Lovely bluish PROOFLIKE surface!** Close examination with a glass reveals faint signs of friction; what was generally referred to as “Cabinet Friction” (caused by slight movement when the drawer on which the coin reposed was pulled out of the old-time coin cabinet a bit too fast). **Listed by Overton as RARITY 6 (VERY RARE). Only 13 to 30 total known!** The specimen pictured in Overton is presumably “Condition Census” and appears to be in only very good — not unusual for a Rarity 6.

This fantastic specimen was acquired 6 years ago at \$2,000 as a date without any attribution as to variety. As a “common” variety of this date, it would now be worth over \$3,000.00. As a Rarity 6, it is worth at least double or \$6,000 (if not triple) that of the “commonest” 1795. We do not believe it quite qualifies for Sheldon’s rule 6 (as stated on pg. 55 of “Penny Whimsy”) for arriving at values: “If known to stand alone as the finest reported of the variety, and full MS, Value equals Condition times Basal Value times 4.” We do however, believe it qualifies for Sheldon’s value rule 2: “If finest reported of the variety, but not full MS, Value equals Condition times Basal Value times 3.” This would then give it a “book value” of \$18,000.00.

Being realists, we doubt if this will occur until Overton adds the two factors in Sheldon’s large cent book (Basal Value & Condition Census) not included in his book. Therefore our belief that present values are “Bargains” compared to what they will be when a new book comes out containing all 3 factors affecting price: Rarity, Basal Value and Condition Census.

We are curious to see which dealer or collector will take advantage of the opportunity to acquire this fantastic specimen, which will probably go at a “Bargain Price”.

73—1795 Variety Overton 110, 9 in date widely recut at outer loop, 9x8 berries, bar-like segment attached to bottom of D (not mentioned in Overton) **UNCIRCULATED! Glittering light golden patina. SHARP STRUCK WITH DEEP SHARP EDGE DENTICLES BOTH SIDES! Desirable early die state with STARS MUCH SHARPER THAN GENERALLY SEEN** (while not full, they are much sharper than pictured on the choice specimen in Overton). **EAGLE’S FEATHERS MUCH SHARPER THAN ON SPECIMEN PICTURED IN OVERTON!** The hair of Liberty’s crown and flowing back from it is not completely full but is **SHARPER THAN THAT PICTURED IN OVERTON.** Acquired 3 years ago for its condition (without any attribution of variety) at \$2,450; its value today (without attribution) would be closer to \$3,500.00. It is far superior to the extremely fine specimen pictured in Overton! We believe it to be “**High up in Condition Census**” and as such, according to Sheldon’s formula, would be worth at least double or \$7,000; or 2½ times which is 8,750.00. Again, being realists, we expect it to go at a “Bargain Price”.

74—1795 Variety 0-113, die break lump between 5 and last star, A in STATES cut over E (STETES) first cut in error, then recut correctly, 9x9 berries, very fine with some portions closer to extremely fine. Rarity 4. **SUPERIOR TO THE FINE SPECIMEN PICTURED IN OVERTON!** The “commonest” 1795 in this condition would be worth in this condition about \$650; presumably it is in “Condition Census” since it is superior to Overton’s. Sheldon rule says multiply by 1½ times or at least .....

75—1795 Variety 0-117, die line right side of Y, field is unfinished below chin, 9x8 berries, **CA recut**, very fine obverse but extremely fine reverse. **RARITY 6 (VERY RARE)**. Only 13 to 30 known. Acquired some years ago as "Very Rare Reverse of 1794. Sharper than the Beistle plate coin". As a "common" 1795, it is worth at least \$650 but as RARITY 6, it is worth at least double or \$1,300.00. Since it is "**Condition Census**" (superior to Beistle plate coin) it is worth at least 1½ times more or at least ..... 1,950.00

76—1795 Variety 0-126, **VERY RARE "SMALL HEAD" TYPE**, variety with 2 center dots positioned vertically below ear, 9x8 berries, late die state with fine crack thru E in UNITED, **UNCIRCULATED bluish golden**; 2 slight edge nicks visible on close examination. Center high points (hair back of ear & feathers of eagle's breast) not fully struck up, stars about 75% struck up. **RARITY 5 (RARE!)**. The Overton plate coin is only fine to very fine indicating its rarity above fine. **THIS RARITY IN THIS REMARKABLE CONDITION IS CERTAINLY "HIGH UP IN CONDITION CENSUS."** The Scott Catalogue lists 4 Major Types of 1795: 1795 2 leaves. 1795 Doubled date, 1795 3 leaves & **1795 SMALL HEAD** stating only 3 obverses for small head & "**Unique in unc.**" The fine catalogs there at 3 TIMES THE PRICE for the "commonest" 1795!

Disregarding the probability that this could be "The Finest Known" of this variety; as a Major Type it should be worth 3 times that of the "commonest" type (about \$1,500 in this condition) or ..... 4,500.00

77—1795 Variety 0-129, **S recut over D**, word **STATED** first cut in error, then corrected, extremely fine with attractive bluish golden patina. Rarity 4 but "**TYPE**" (only single reverse with this error). **Sharper obverse than Overton plate coin therefore presumably "Condition Census"**! A "common" 1795 this choice is worth about \$750. Disregarding its premium as a "type", its "**Condition Census**" makes it worth ..... 1,125.00

### 1797 "FINEST KNOWN" HALF DOLLAR

78—1797 Variety Overton 101a, **GLITTERING BLUISH PROOFLIKE! A FANTASTIC SPECIMEN, SHARPLY STRUCK WITH DEEP SHARP EDGE DENTICLES BOTH SIDES!** Left stars 95% FULL! Top right 4 stars 50% Full & last 3 stars 80% FULL! **PROOFLIKE** but when held at a certain angle and closely inspected, the few faint "Mint Equalization Lines" applied at the Mint during its manufacture are evident. Evidence that this remarkable specimen has not been tampered with (as have most we have seen in recent years). Interesting die break thru second star. Die break between D & S and across eagle's left wing ("Hallmark" of this variety).

Acquired 1964 as "**FINEST KNOWN**" at \$25,000.00. We do not recall ever seeing a choicer specimen in all our 39 years as Professional Numismatists! What a "Finest Known" might now bring, 8 years later, is difficult to determine.

### 1801-02 HALF DOLLARS IN CHOICE CONDITION

79—1801 Variety 0-101, Large die lump connecting ER in AMERICA, another joins 3 segments at bottom, **UNCIRCULATED GOLDEN!** Close inspection with a glass reveals faint signs of having been handled some during its 171 years of existence. We believe the Guidebook price of \$1,200 is theoretical, rather than being based upon what an uncirculated specimen has actually been sold at. The Scott Catalogue is more realistic with the statement "**EXCESSIVELY RARE IN UNC.**" They also state for the 1802 "**Extremely Rare In Unc.**" The 1966 A.N.A. Convention Sale (Kosoff) had an Uncirculated 1802 (but not the 1801) which fetched \$1,500; which on a proportionate scale would make the 1801 worth at least \$2,000.00. What this 1801 will now bring is problematical.

## 1801-02 HALF DOLLARS IN CHOICE CONDITION (Cont.)

- 80—1801 Variety 101 but very rare early die state with only faint die break between ER and tiny lump joining only 2 segments at bottom, Extremely Fine. Well worth ..... 750.00
- 81—1802 Variety 0-101, 12 arrows reverse, Extremely Fine. Rarity 4. .... 600.00

## 1803, 1805/4 HALF DOLLARS IN CHOICE CONDITION

- 82—1803 Variety Overton 101, Large 3, 12 Arrows, small rev. stars, Extremely Fine & Sharp (acquired as "About Uncirculated") with luster. Listed in Scott as a separate "Type" at about double the value of the "commonest" 1803. A bit superior to the Overton plate coin! ..... 600.00
- 83—1803 Variety 0-102, Large 3, 13 Arrows, small rev. stars, die crack joining TAT, Extremely Fine & Sharp with luster. Rarity 4. Listed in Scott as separate "Type". Superior to the fine to very fine Overton plate coin! As a date, easily worth \$300; as a variety worth at least \$450; and as "Condition Census" easily worth ..... 675.00
- 84—1803 Variety 0-103, Large 3, 13 Arrows, LARGE REV. STARS, Extremely Fine & Sharp, some traces of luster. .... 300.00
- 85—1805 OVER 4, variety 0-101, Close overdate, 13 arrows, weak second star ("Hallmark" of this variety) Extremely Fine & Sharp with some Luster (acquired as "About Uncirculated"). Rarity 4. SUPERIOR TO THE OVERTON PLATE COIN! Scott Catalogue states "Unverified in unc." and does not price it in better than v.f. Probably "CONDITION CENSUS". As such, worth ..... 675.00

## 1805 OVER 4, WIDE DATE — FINEST KNOWN?

86—1805 OVER 4, variety 0-103a, WIDE OVERDATE, prominent die break nose to edge and SPECTACULAR TRIANGULAR BREAK ENCOMPASSING FIRST 2 STARS TO HAIR. A FANTASTIC VIRTUALLY UNCIRCULATED SPECIMEN WITH BAREST FRICTION! Lovely bluish golden luster. Die break across bust connecting above 2 breaks, stars struck up about 50% rather than being nearly flat as characteristic of most of the few known specimens. RARITY 7 (EXCESSIVELY RARE)! Overton lists this single die combination in 3 different die states (103, 103a, 103b) and gives each a Rarity 7 rating, Scott lists 2 "TYPES" 1805 OVER 4; Close Date & Wide Date and under Wide Date states "Almost R7." which we interpret to mean 13 to 15 total known of this "TYPE" (total of Overton 103, 103a, 103b).

THUS, THIS IS AMONG THE TOP RARITIES OF THE MAJOR VARIETIES OF THE ENTIRE HALF DOLLAR SERIES! It takes its place among the illustrious company of 1817 Over 14, 1838-O, 1847 Over 46. The Overton plate coins of 103a and 103b (none for 103) are very good and good respectively. Scott Catalogue states "UNKNOWN IN UNC., EXTREMELY RARE ABOVE FINE." Scott Catalogues values this MAJOR VARIETY at over 4 times that for the 1805 Over 4 close date "Type" in very fine; but of course no comparison can be made for the higher conditions since this "Type" is not known uncirculated and is so much more rare comparatively for over very fine condition.

This specimen was acquired 1964 as "RARE CRACKED DIE, BEST KNOWN?" at \$1,700.00. We are inclined to believe that this Fantastic Specimen is indeed "THE FINEST KNOWN"

When it is eventually included in the Guidebook as a Major Variety, we believe it will rise to a value closer to that of the 1817 over 14 (cat. v.f. \$5,500) but since at present it is only listed as such in Scott, we believe it to now be worth between \$3,500 and ..... 4,000.00

## 1805-06 HALF DOLLARS IN CHOICE CONDITION

- 87—1805 Variety 0-106 BUT UNLISTED RECUT "ST" (STATES), 4 berries, 13 arrows, extremely fine and sharp with luster. Rarity 4. Similar in condition to Overton plate coin. The "commonest" variety of this date (R-2) in this condition would be worth about \$225; this worth about \$450; if "Condition Census" then it would be worth ..... 675.00

- 88—1805 Variety 0-111, 5 berries, 13 arrows, near Uncirculated, some interesting die breaks. Rarity 3. The “commonest” variety (R-2) in this condition worth \$350; this worth about ..... 475.00
- 89—1806 OVER 5, top of 5 visible near top of 6, Variety 0-103 BUT UNLISTED RE-CUT STAR 13 OBVERSE & 6 RECUT STARS REVERSE, error edge “ALLOR” instead of “A DOLLAR”, near uncirculated, pinpoint nick. Catalogs unc. (“common” variety) ..... 675.00
- 90—1806 OVER 5, Variety 104a called “1806 Over 6” by Beistle as the underlying 5 in bottom of 6 resembles right curve of 6, about Extremely Fine (die failure of some reverse stars and other “hallmarks” of this variety gives it the illusion of being closer to very fine in some respects). **RARITY 6 (VERY RARE)**. Similar in condition to the less rare 0-104 (R-5) plate coin (no plate 104a) therefore a strong probability of being “**CONDITION CENSUS.**” A “Naked Eye” variety deserving of separate listing as a “TYPE”. Acquired some years ago as “EXCESSIVELY RARE 1806 OVER 6” at \$1,000.00. Since it is not as yet listed as a separate “Type”, it is difficult to know what it may now be “worth”.

91—1806 OVER 9, Variety 0-112, bisecting obverse die crack & one thru star 11, near Uncirculated. While hair on top of head and ribbon back of head are not fully struck up, they are sharper struck than usual for this shattered die variety, pinpoint nick in field. **RARITY 6 (VERY RARE)**. Acquired 1964 as “POSSIBLE FINEST KNOWN” at \$825.00. Comparing it to the fine Overton plate coin, it is entirely possible that this actually could be the “FINEST KNOWN”. Scott states “Always flatly struck up” and does value this type (Overton 111 & 112) in better than very fine. We believe the Guidebook price is theoretical for uncirculated as we have yet to see a full uncirculated specimen of either 0-111 or 112. This variety in this remarkable condition should surely now be worth closer to ..... 1,500.00

- 92—1806 Variety 0-115a, Double Cut TY in Liberty, die crack bottom of date branching in two at left, Uncirculated golden, some “cabinet friction” (from sliding in old-time coin cabinets). Rarity 3 compared to commonest variety (Rarity 1) of pointed 6, stem thru claw. Easily worth over ..... 500.00

### 1807 BUST RIGHT & LEFT HALF DOLLARS

New type edge without ornaments or stars between words.

- 93—1807 Bust right, variety 0-102, large 180 but small 7, 5 berries, “Comet” variety (die cracks from clouds thru F resembling “comet”) Extremely Fine & Sharp with pleasing patina, slight edge knock. Rarity 3. “Commonest” variety (R-2) in this condition worth \$200, this R-3 worth about ..... 250.00
- 94—1807 Bust right, variety 0-105, “Apostrophe” variety (small lump after top of STATES) virtually Uncirculated, only barest friction, attractive blue patina. Catalogs new ..... 500.00
- 95—1807 Bust Left, variety 0-113, small stars, late die state with die crack bust thru left stars to cap; rx. crack 50 around left half. Actually not too far from the “about unc.” as acquired but due to the characteristic weakness of striking, the center is not as sharp as normal for this grade. Scott states “**Always weakly struck at centers. Many, many times rarer than next (Large Stars)**”. Scott lists it v.f. \$125 & unc. \$500; this (in spite of its weak chin & left wing) probably worth ..... 300.00
- 96—1807 Bust Left, 50 OVER 20, variety 0-112, UNCIRCULATED GOLDEN, CHOICER THAN MOST SEEN. Records around ..... 500.00

97—1807 Bust Left, variety 0-111a, early die state of “Bearded Chin” with crack from chin to chest light except where it joins chest, when it is heavy, VIRTUALLY UNCIRCULATED, ONLY BAREST FRICTION! **RARITY 6 (VERY RARE)**. Undoubtedly “**CONDITION CENSUS**” and as such, worth at least .... 1,000.00

194—1836 <b>RAISED EDGE &amp;</b> slightly different reading, <b>GLITTERING BLUISH GOLDEN PROOFLIKE</b> , examination with a glass indicate minute imperfections. Most likely, a " <b>SPECIMEN</b> " or " <b>PROOF</b> " striking which has had several owners during its 136 years of existence. Acquired as a " <b>Mishandled Proof</b> " some years ago. Records to \$2,000 for full proofs, this coin probably worth between 1/3 and 1/2 that.

## 1837 POSSIBLE PATTERN HALF DOLLAR?

**195—1837 VERY BROAD PLANCHET** (larger than regular 1837) **BROAD RAISED EDGE**, reverse **WIRE EDGE**, bifurcated top of T in CENTS, Uncirculated bluish golden, close examination with glass reveals faint "cabinet friction". The owner believed this to be a pattern since it differed from the regular halves of this date. Judd does not list any 1837 patterns. The Act authorizing this coinage was not passed until Jan. 18, 1837. A most interesting piece worthy of research.

Whatever the reason for the striking of this specimen, **IT IS UNDOUBTEDLY OF THE GREATEST RARITY!** We are at a loss to know what it is "worth". The owner had it bracketed with such rarities as 1817 over 14 (cat. v.f. \$5,500) & 1838-O (\$14,000). While it is true that this 1837 is even rarer than the above 2 coins, the value must ultimately be determined by supply and demand. We do not know how strong the demand will be for this piece, but we do know that there is a very strong demand for halves (50c section revised & varieties added). Based on all these factors, we feel this piece could bring several thousand dollars.

## 1865 WITH MOTTO "TRANSITIONAL" HALF DOLLAR

298—1865 TYPE 1866 WITH MOTTO, BRILLIANT BLuish GEM PROOF! SCOTT CATALOG LISTS IT AS 3 STRUCK! The Guidebook lists the 1866 no motto as "Unique—Hydeman Sale 1961—Proof \$15,500.00". It is similar in rarity to the 1866 no motto quarter which realized \$24,500.00. We believe the half would now equal the quarter price, if it were offered.

This remarkable 1865 with motto half should now realize over \$10,000.00; a price arrived at after considering the 5 years old record of \$15,000.00 realized for the 1866 no motto dollar (2 known) in the Charles Jay Sale 1967 by Stack's.

## BARBER (LIBERTY HEAD) HALVES 1892-1915

Quite popular and rapidly rising in value. The demand for “type” is so strong that dealers offer to pay \$115 for unc. & \$145 for proof of commoner dates (1/7/72 Coin Dealer Newsletter). This has resulted in common dates bringing the same price as the scarcer branch mints in many instances (compared to their bringing about 1/5 ten years ago. We believe this inconsistency will right itself in the near future due to the influx of collectors for this series; and the scarce & rare dates will rise to their proper proportionate values. “List” prices (except proofs which are not listed by date) are those in 1/7/72 Coin Dealer Newsletter.

### EARLY AMERICAN COINAGE

#### MASSACHUSETTS "NEW ENGLAND" COINAGE DATED 1652 & 1662

Struck at Boston by John Hull. We note a steady rise in values over the years with some recent increased values quite substantial. Given the limited coinage surviving over three centuries and the increasing demand, it appears inevitable that today's prices will appear as "bargains" in the relatively near future.

449— <b>OAK TREE SHILLING 1652</b> , from a 1964 sale described "Noe 10 (delicate tree), variety, Very Fine, slightly impaired (about ¼ inch scratch and about same size dimple on other side). <b>THE CHOICEST SPECIMEN AVAILABLE OF THE ONLY 6 KNOWN</b> (there is a better specimen in the remaining 5 but it is impounded). \$1,000.00." Surely this rarity now worth over .....	1,500.00
--	----------

450—**OAK TREE SIXPENCE 1652, Noe 16** (severely clashed dies, weak tree), a "Type" coin listed separately as type 9 in Scott Catalogue (only the single variety thus) with MASATHVSETS/IN NEW ENGLAND ANO. (most Oak Tree Sixpences are type 11 in Scott), most of date side is fine to very fine with a tiny worn spot, the other side has the tree faint but HVSETS quite sharp. RARITY 5 (only 31 to 75 known). Surely this worth the Guidebook value of the "commonest" variety in fine of ..... 400.00

451—**OAK TREE TWOPENCE 1662, Noe 34 variety, virtually Uncirculated, only barest friction, well-centered and fairly sharp struck with tree remarkably sharp.** While the tops of the letters have the typical flatness, still they are somewhat sharper than usually seen. **FAR SUPERIOR TO THE NOE PLATE COIN! Acquired as "FINEST KNOWN"!** Since we have been unable to locate a superior specimen, we cannot dispute this statement. The Guidebook values the "commonest" variety at \$90 fair, \$200 good and \$325 fine but does not attempt to value specimens above fine, due to their rarity in superior conditions. The "commonest" variety in this remarkable condition, based upon the above ratio of increasing values, would then be worth at least \$1,250. Using Dr. Sheldon's formula (pg. 55 of "Penny Whimsy") "Toward A Science Of Cent Values", **If finest reported of the variety, but not full MS (Mint State), Value equals Condition times Basal Value times 3."** We arrive at a value of \$1,250 times 3, or \$3,750. It will be interesting to see what this "Book Value" of \$3,750 actually brings as prices realized vary, depending upon the degree of interest in the variety and desire of owning the "FINEST KNOWN".

452—**PINE TREE SHILLING 1652, Large Planchet, MASATHVSETS IN/NEW ENGLAND AN DOM, Noe 1** (small tree with berries) interesting die state with die break thru N(AN) making it resemble a K over N, extremely fine and fairly well-centered. RARE, ESPECIALLY SO CHOICE. .... 1,000.00

453—**PINE TREE SHILLING 1652, Large Planchet, Noe 11 variety (Very Large Tree, no berries, smaller letters) extremely fine with slightly wavy planchet** (as most of these large, thin coins come) resulting in some portions being sharper than others (the important tree is quite sharp). RARE. .... 1,000.00

454—**PINE TREE SHILLING 1652, small planchet, Noe 29** (double curved branches & small letters). Very Fine and rather well-centered **BOTH SIDES! RARE.** the "commonest" variety catalogs \$450, this worth over ..... 600.00

455—**PINE TREE SIXPENCE 1652, Noe 33, date side about fine, tree side fine, typical strike with part of legend on tree side not completely showing.** RARITY 4 Catalogs in Guidebook fine \$350 and v.f. .... 500.00

456—**PINE TREE THREEPENCE 1652, Noe 36, near Uncirculated with lovely patina, well-centered and sharply struck! Acquired as "FINEST KNOWN"!** We have not been able to verify this, altho **IT IS SHARPER THAN THE NOE PLATE COIN!** If this were not "Condition-Census" (one of 6 best condition known) it would be worth in this choice condition at least \$1,000.00 Since it is, then Sheldon's formula would give it the following values: If 3rd Finest, it has 2 times the value or \$2,000.00. If 2nd Finest, it has 2½ times the value or \$2,500.00. If finest, then it has 3 times the value or \$3,000.00. It should surely be one of these three.

REX variety in bronze (unpriced in Guidebook) and the same in silver (in Guidebook at \$800 for E.F.), therefore we feel this great rarity should exceed ..... 1,000.00

## UNIQUE 1724 PATTERN HALF PENNY

- 478—1724 "GOITER NECK" BUST/SEATED FIGURE WITH HARP, Prooflike surface, chocolate and some red. Acquired 1964 when it was valued \$2,250.00. It was listed there as "Nelson 13". It is the general type of Nelson 13("Coinage of William Wood, 1722-33", Nelson 1903) but the obverse die is slightly different than that shown on Pl. 1, No 6 and the reverse is obviously different than shown on Pl. 1, No. 5. The reverse has a period following HIBERNIA, distant from the A; the branch is centered below B E, and is distant; the head is much further than the R, etc. Likewise, it is hardly the piece illustrated on Pl. V, No. 1, of Nelson's "Coinage of Ireland, Copper, Tin, Pewter", 1905. **Scott Catalogue lists this general type as type 306 (with no period after HIBERNIA, etc.) with 2 specimens known; JHU (Johns Hopkins University) and ANS (Amer. Num. So.) BOTH IMPOUNDED & OFF THE MARKET! This should probably be listed as "Type 306A" and is THE ONLY KNOWN SPECIMEN!** Type 307 has a similar obverse but the trident & scepter reverse of which they list 4 known. The Merkin Nov. 1968 sale had a specimen.

## \$5-\$10 1861 DEMAND NOTES — VARIETIES

A specialized collection of the "ORIGINAL GREENBACKS" (the name arose from this first issue having the reverse printed in green). THE ONLY U.S. NOTES WHICH DO NOT BEAR THE SIGNATURES OF THE REGISTER & TREASURER OF THE U.S.! As the first issue of currency, and in the nature of an "EMERGENCY ISSUE" due to the Civil War, varieties abound and offer a fertile field for study. This is such an attempt. Authorized by Act Of July 17, 1861, (issued Aug. 10, 1861) they circulated in late 1861 and early 1862 (when the LEGAL TENDER notes appeared). Since these were redeemable in gold "ON DEMAND", they CIRCULATED AT A SUBSTANTIAL PREMIUM ABOVE "LEGAL TENDER" notes. As a result, they were rapidly redeemed. That any have survived is indeed unusual; but to have any exist in "reasonably decent" condition is remarkable (it took a lot of "intestinal fortitude" to deliberately lay aside these notes redeemable in "hard money" when inflation was producing a flood of "legal tender" notes rapidly depreciating in value). Fortunately, a few "hardy souls" did. Most of the specimens known today are in wretched condition, (poor or damaged to fair and good with a few in very good). Friedberg lists them in only "Very Good" & Donlon has them in only "Good" & "Very Good". These specimens accidentally survived (evidently laid away by hoarders or other non-collectors), which accounts for their wretched condition.

### 1797 PROOFLIKE CENT

**1065—1797 DRAPED BUST, S-123** (Closest Date & die cut on cheek variety) in old-time envelope of Chapman (leading dealer over half-a-century ago) described **"1797 CENT, PROOF, D-106"**. It is easy to see why it was called a "PROOF" as it is a **LOVELY GLITTERING BLUISH OLIVE PROOFLIKE SURFACE** with **BOLD & SHARP EDGE DENTICLES BOTH SIDES!** It was later described **"Fourth Rarest Variety Of This Date Known to Doughty"**. Dr. Sheldon lists it as RARITY 4. When this remarkable specimen was acquired 8 years ago, it was valued at \$3,000.00. Present value?

1066—1807 LAST YEAR OF TYPE, S-276, Large Fraction & inverted reverse, UNCIRCULATED brownish chocolate. Similar (except for color) to one we had in a previous sale described "possibly the "60" coin listed in "CONDITION CENSUS" as THIRD FINEST KNOWN." \$1,000.00. The very strong present demand for "EXCEPTIONAL SPECIMENS" for "Type" has set new records nearly every time they have been offered, particularly in the last year. Present value?	
1067—1810 CLASSIC HEAD S-282 (second scarcest of all 1810 varieties) near uncirculated. Sharp. Valued by Sheldon at 50% more than the "common" variety. ....	375.00
1068—1812 Similar type, S-290 (small date), described "UNCIRCULATED, LUSTROUS BLACK". & "Halfenstein \$950". It is indeed a lovely specimen but close examination with a glass reveals the faintest friction. "Halfenstein" refers to the outstanding collection of this name sold by Lester Merkin (1964 N.Y.) which contained a superior specimen which realized \$950. The one herein offered (8 years later) now worth over half of Halfenstein specimen.	
1069—1817 15 STARS, N-16 variety, UNCIRCULATED bluish brown, sharper struck than most seen over the years. ....	250.00
1070—1820 13 Stars, small date, N-15 variety (RARE) LOVELY IRIDESCENT UNCIRCULATED SPECIMEN WITH SOME PROOFLIKE SURFACE! .....	300.00

## 1824 WASHINGTON-LAFAYETTE COMMEMORATIVE CENT

1071—"GEORGE WASHINGTON" around his bust counterstamped (size of half-dime) on obverse of 1822 cent, "GENERAL LAFAYETTE 1824" around his bust counter stamped on reverse. The counter stamps are **UNCIRCULATED** and the 1822 cent has only slight friction. In plastic holder lettered "WASHINGTON-LAFAYETTE COMMEMORATIVE" above, "THE FIRST U.S. COMMEMORATIVE COIN STRUCK TO COMMEMORATE LAFAYETTE'S VISIT TO THE U.S. IN 1824" below. The dies were engraved at the mint by C. C. Wright. What few specimens we have seen in our 39 years as professional numismatists have been for the most part, holed or worn attesting to the esteem in which Lafayette was held. A remarkable specimen of this rarity acquired some years ago at \$1,500; probably now worth closer to ..... 2,500.00

## 1825 PROOF CENT

1072—1825 In Original Box gold stamped "1825 A-9 PROOF", rev. "Large A's, Extremely Rare In Proof. Dr. French Coll. Lot 457". The Dr. French Collection of Large Cents was sold by B. Max Mehl over 40 years ago (he called it the "Recognized Finest and Most Complete Collection of Its Kind Ever Formed"). Mehl described it therein as "Beautiful IRIDESCENT RED AND PURPLE PROOF. EXTREMELY RARE IN THIS WONDERFUL CONDITION." Walter Breen in "Proof Coins Struck by The United States Mint 1817-1921" published 1953 states "Certainly R-7, Possibly Rarity 8". Since Rarity 8 means **ONLY 2 OR 3 KNOWN**, any further comments regarding its rarity and desirability are unnecessary. From records accompanying the collection, it appears that \$2,500 was paid for this remarkable specimen nearly a decade ago. Judging from present prices prevailing for outstanding specimens in strong demand for "types", it would not surprise us to see this "fantastic specimen" now realize closer to ..... 5,000.00

## 1844 GLITTERING RED PROOF

1079—1844 LAST TYPE with Bust Centered Over Date & Large Letters used late 1843 to 1857. **GLITTERING RED PROOF BOTH SIDES, CAMEO-SHARP STRIKE WITH WIDE RAISED EDGE BOTH SIDES**, in old-time box with Gold-stamped border described "Not in N" (Newcomb). In trying to evaluate this popular "type" coin, we are fortunate to have a recent offering which might be of some help. "The Coin Round-Up" from Western Numismatics, Inc., Wholesale Division, dated April 3, 1972 offers an 1854 Proof Set consisting of Half Cent, Large Cent, Half Dime, Dime, Quarter, Half Dollar, Dollar for \$19,500.00 for the set. The 2 year-old Scott Catalogue lists all these proofs individually for a total of \$7,800. This figures out 2½ times the theoretical catalogue values. The cent, which has a theoretical catalogue value of \$500, would thus have a "real" value of \$1,250.00. Breen in "Proof Coins Struck by U.S. Mint", indicates that the 1854 is the commonest of the large cent proofs. Surely this **LOVELY 1844 PROOF (COMPARABLE TO MODERN PROOFS MADE IN THE 1860'S OR 1870'S) WHICH IS MANY, MANY TIMES RARER THAN THE 1854 IS WORTH CLOSE TO** ..... 5,000.00

1139—1796 DRAPED BUST, SMALL EAGLE, virtually UNCIRCULATED, only barest friction, lovely blue patina. Originally acquired as "UNCIRCULATED", but close examination reveals what the old-time catalogers called "cabinet friction". Popular with a consistent rise in value over the years. Catalogs unc. \$2,500, but choice specimens bring more.

1145—1837 **NO STARS, Large Date, Uncirculated with deep blue patina.** The strong demand is reflected in the "BU" specimen in Bowers & Ruddy May sale bringing \$625.00. We urge collectors to familiarize themselves with prices realized for top-grade coins in recent months. Many bring double or triple catalog. Unfortunately, prices advertised for "polished" or "whizzed" coins sold "Uncirculated", have tended to confuse the novice and even some of the unwary more knowledgeable collectors.

## TYPE QUARTER — CHOICE (Cont.)

- 1171—1831 Small letters, NO MOTTO, **BRILLIANT GOLDEN, WIRE EDGE SHARP STRUCK, UNCIRCULATED GEM!** We would not be surprised to see the strong demand send this remarkable specimen to over ..... 1,000.00
- 1172—1834 **LARGE LETTERS, GLITTERING BLuish GOLDEN UNCIRCULATED, SHARP STRUCK GEM WITH RAISED EDGE & SOME PROOFLIKE SURFACE! IN THIS REMARKABLE CONDITION, EASILY WORTH** ..... 750.00
- 1173—1836 **GLITTERING BLuish GOLDEN PROOF!** We believe the regular dies, after being used for a while, were polished and then used to strike this. It does not have as much "depth" to the proof surfaces as later dates. Still, it does indicate that "special care" was used in its manufacture. 1,500.00
- 1174—1840-O **LIBERTY SEATED, NO DRAPERY,** Uncirculated golden but close examination with glass reveals faint rubbing. Scott Catalogue states "Very rare in unc." and values it at more than the 1838 this type of which a choice specimen in our May sale realized ..... 310.00
- 1175—1844 **DRAPERY,** Uncirculated golden, usual strike, slightly prooflike. .... 100.00
- 1176—1853 **ARROWS & RAYS,** Brilliant slightly golden **UNCIRCULATED, WIRE EDGE GEM!** The 1968 & 1969 records (Stack's) of \$625 & \$650 leads us to believe this remarkable specimen will now exceed ..... 750.00
- 1177—1854 **ARROWS ONLY,** Uncirculated golden bluish, but close examination with glass reveals faint rubbing. The "Gem" in our May sale (realized \$325; this worth proportionately.

- 1179—1857 **BRILLIANT WIRE EDGE PROOF! VERY RARE.** The specimen in Stack's May sale realized \$900; we expect the present strong demand to send it over \$1,000, perhaps closer to ..... 1,100.00
- 1180—1869 With Motto, **BRILLIANT BLuish WIRE EDGE PROOF! ONLY 600 STRUCK** over a century ago. A lovely specimen in strong demand. Stack's unc. specimen in May brought \$160; surely this choice proof worth over ..... 175.00
- 1181—1873 **ARROWS,** Uncirculated bluish, usual strike. **SCARCE.** Catalogs ..... 210.00
- 1182—1874 **ARROWS, GLITTERING GOLDEN WIRE EDGE PROOF!** Choicer than most. Stack's May sale specimen realized \$370; surely this choice one now worth over ..... 400.00
- 1183—1877 Brilliant slightly golden **PROOFLIKE GEM!** In this condition, actually rarer than proof which catalogs ..... 135.00
- 1184—1880 **GLITTERING GOLDEN WIRE EDGE PROOF!** Catalogs \$115 but the strong present market leads us to expect it will bring a bit more.
- 1185—1892-O Uncirculated with deep blue patina. The "gem" Stack's May sale coin realized \$105; this is only an average strike and will probably bring closer to ..... 75.00
- 1186—1896 **BRILLIANT GOLDEN GEM PROOF!** The less scarce 1894 "gem" in Stack's May sale brought \$135; this much lower issue gem could now exceed ..... 150.00

## TYPE HALVES — CHOICE

- 1191—1795 **SMALL EAGLE,** extremely fine and sharp, some fine lines visible when closely examined ("mint equalization lines"?). ..... 1,000.00

1192—1797 MUCH SMALLER EAGLE & “½” BELOW, fairly close to Uncirculated with only slight friction on highest points, while stars are not completely full, they are fuller than generally seen, hair lines of bust sharper than generally seen, breast of eagle fuller than usual although feathers are not visible. Superb Bluish Golden Patina! A TOP-GRADE SPECIMEN OF THE “RAREST TYPE HALF DOLLAR”! Easily worth over ..... 10,000.00

1193—1806 HERALDIC EAGLE, Pointed top 6, acquired 1966 as a “PROOF” at \$2,250.00. It is indeed a fantastic specimen with **COMPLETE PROOF SURFACE BOTH SIDES!** The sharpness of strike and polished planchet used for its manufacture establishes the fact that “Special Care” was given to the way it was made. While it is not comparable to the medallion proofs struck in the 1860’s, still it is so far superior to the “ordinary” specimen of this date that it must be placed in a category by itself. The present demand for “Exceptional Condition” coins is such that we would not be surprised to see it realize ..... 3,500.00

1194—1807 Bust right, virtually Uncirculated with practically full luster, only barest friction. The rapid advance presently taking place for choice specimens is reflected in the \$700 realized for the unc. specimen in Stack’s May sale.

1195—1807 BUST LEFT IN CAP, First Style Head & Eagle, SMALL STARS, UNCIRCULATED BLUISH GOLDEN, SHARP STRUCK STARS & EDGE DENTICALS BOTH SIDES! As Scott Catalogue states “Always weakly struck at centers. Many, many times rarer than next (Large Stars)”. Altho the chin & some hair curls are not full, the TOP OF THE CAP IS FULL; only the left wing, eagle’s neck and tips of claws are not full on reverse. **RARE, PARTICULARLY SO CHOICE.** Scott about 2 years ago listed it at \$500, surely its present value should be over ..... 600.00

1196—1808 OVER 7, A “FANTASTIC SPECIMEN” having the notation “**BRILLIANT PROOF, \$5,000, 1967!**” It has **COMPLETE PROOF SURFACES BOTH SIDES, “SQUARE EDGE” COMPLETELY AROUND & CAMEO-SHARP STRIKE!** It does not appear to be a restrike such as the Proof 1803 \$1 which realized \$14,000 in the May Bowers & Ruddy sale. It is probably the “**Best Specimen That Could Be Manufactured By The Mint With The Equipment They Then Had**”.

Since this style bust & eagle was used only in late 1807 and 1808, it is in rather strong demand for a “type”. In view of the \$14,000 realized for the 1803 dollar Proof, it is difficult to know what this remarkable coin is “worth”.

1197—1809 REMODELED BUST & EAGLE, Brilliant (slightly golden) **UNCIRCULATED, SHARP STRUCK!** Prices realized this year in sales of various dealers for choice specimens leads us to believe this remarkable specimen will bring around ..... 350.00

1198—1819 Glittering bluish golden **PROOFLIKE** (not the “Proof” for which acquired at \$500 some years ago), the center points of all stars sharp, as are all the edge denticals both sides; faint rub on cheek, curl & point of bust (which appears to be unfinished). ..... 250.00

1199—1836 **NEW TYPE, REEDED EDGE & “50 CENTS”**, near Uncirculated, only slight friction, some luster. **ONLY 1200 STRUCK** making it one of the lowest issues of all halves! Catalogs low unc. at only ..... 350.00

1200—1837 Similar type acquired as “**LARGER THAN NORMAL SIZE PLANCHET, DOUBLE REEDED EDGE**”; it is also lovely bluish golden **PROOFLIKE, REMARKABLY SHARP STRIKE** altho some of the right stars are not full. Have seen similar not very long ago at ..... 500.00

1201—1838 REVERSE CHANGED TO “HALF DOLLAR”, glittering bluish **UNCIRCULATED**, choicer than most seen over the years. .... 250.00

## TYPE HALVES — CHOICE (Cont.)

- 1202—1839 NO DRAPERY (LIBERTY SEATED), acquired several years ago as "PROOF — EXTREMELY RARE" at \$1,000.00. It does have **LOVELY GLITTERING BLuish GOLDEN PROOF SURFACE BOTH SIDES** as well as **WIDE RAISED "SQUARE EDGE" AROUND BOTH SIDES**; a glass reveals faint "cabinet friction" on breasts & knee of Liberty and evidence in field of slight contact with other coins. **THE SHARPEST STRUCK SPECIMAN OF THIS RARE "TYPE" THAT WE CAN RECALL SEEING!** The demand for "top grade" specimens is so strong for this "3 type year" (bust, no drapery, drapery) that we would not be surprised to see this remarkable specimen bring over ..... 3,000.00
- 1203—1839 DRAPERY, bluish golden UNCIRCULATED. Catalogs low at only ..... 125.00
- 1204—1840 TYPE 1839 WITH SMALL LETTERS, Glittering bluish golden **PROOF-LIKE WITH RAISED EDGE!** A lovely specimen in strong demand. We would not be surprised to see it realize close to ..... 300.00
- 1205—1840 TYPE 1838 WITH LARGER LETTERS, unlisted variety with Partial Drapery from elbow, extremely fine (Scott states "Always flatly struck"). **RARE.** ..... 200.00
- 1206—1842 LARGE DATE, LARGE LETTERS, LARGE EAGLE, Glittering bluish golden **PROOFLIKE!** We have occasionally seen specimens of this nature labelled "PROOF" by the more enthusiastic newer entrepreneurs. Recent records leads us to believe this specimen will realize around ..... 250.00
- 1207—1853 RAYS & ARROWS, **BRILLIANT SHIMMERING GOLDEN UNCIRCULATED, SHARP STRUCK GEM!** The demand for this "one year only" type in this exceptional condition is so great that we unhesitatingly believe it will bring well over \$1,000—probably closer to ..... 1,500.00
- 1208—1854 ARROWS ONLY, Brilliant slightly golden **UNCIRCULATED, SHARP STRUCK GEM!** The "fantastic demand" for an exceptional specimen such as this leads us to believe it will realize over \$400—probably closer to .... 500.00
- 1209—1855 ARROWS, **GLITTERING BLuish GOLDEN PROOF WITH WIRE EDGE!**  
 Since only 1854 & 1855 have arrows, the demand for these two dates for "type" is strong indeed. The availability of either in proof can be measured in spans of years. It is indeed an occasion when one is offered. This specimen was acquired over 5 years ago at \$3,200 (both buyer and seller were cognizant of its true rarity rather than a "theoretical" value). Theory must give way to supply & demand when a popular rarity such as this is actually available. For instance, the 1875 eagle in Ex .Fine was valued at \$1,500 in the 24th Edition Guidebook. In Nov. 1970 an Ex. Fine specimen became available in a Stack's sale where it was bid up to \$7,000—close to 5 times the "theoretical" value. Since the demand for "types" is so much greater than that for specific dates, we cannot visualize what the top bid might be. Surely this rarity, over 5 years later, worth at least double its cost of \$3,200; or around ..... 6,000.00
- 1210—1855 **UNCIRCULATED CHOICE** with **SUPERB BLuish GOLDEN PATINA.** Close to 3 times the rarity of 1854, therefore it should realize at least as much, if not more than the 1854.
- 1211—1856 Plain Date, Brilliant golden **UNCIRCULATED** with **WIRE EDGE!** Popular. Recent records lead us to believe this choice specimen will bring close to ..... 200.00
- 1212—1872-CC **UNCIRCULATED** Golden but close examination with glass reveals faint rubbing. **RARE SO CHOICE!** The 2 years-old Scott values unc. at \$400; this specimen now worth?
- 1213—1873 ARROWS, **PROOFLIKE** surface with deep bluish golden patina, variety with partial Drapery from elbow. .... 400.00

1214—1873-S Microscopic “s”, BRILLIANT slightly golden <b>PROOFLIKE, SHARP STRUCK, WIRE EDGE GEM!</b> A remarkable specimen of the low coinage popular “type” coin. We would not be surprised to see this beauty bring over .....	750.00
1215—1874 Arrows, near Uncirculated with deep bluish patina. Catalogs unc. ....	250.00
1216—1880 BRILLIANT BLUISH GOLDEN WIRE EDGE GEM PROOF! Recent records lead us to believe this choice specimen will bring close to .....	175.00
1217—1891 Uncirculated golden, WIRE EDGE! Record \$110, probably now bring over .....	135.00
1218—1894 <b>LIBERTY HEAD, Brilliant bluish WIRE EDGE GEM PROOF! One in Stack’s May sale realized \$210; this probably now exceed</b> .....	235.00

1226—1795, B-1, FLOWING HAIR, 15 STARS (states), two leaves under each wing, <b>very close to Uncirculated</b> with only slight friction on highest points, tiny depression on reverse as made during minting process (visible when closely examined), lovely bluish golden Prooflike patina. 1227—1795 B-5, FLOWING HAIR but three leaves under each wing, extremely fine bust with balance of obverse very close to Uncirculated; reverse very close to Uncirculated with only slight friction on eagle’s breast. Popular “type”. Catalogs E.F. \$900 & unc. \$2,000; this choice specimen worth about .....	1,400.00
1228—1795 B-15, HAIR IN KNOT, SMALL EAGLE, Extremely Fine & Sharp, traces of luster. Rarer than B-14, the other 1795 this type. Easily worth .....	1,000.00
1229—1797 B-1, 16 STARS (Tennessee became 16th state) Arranged 9X7, small eagle reverse but MUCH LARGER LETTERS, near Uncirculated, traces of luster. <b>THE RAREST YEAR 1795-1803 (only 7,776 total for the 3 major varieties of 1797) compared to 41,650 for the second rarest year (1802).</b> Catalogs much too low unc. at only .....	1,800.00
1230—1797 B-3, STARS CHANGED TO 10X6, <b>UNCIRCULATED GOLDEN!</b> A lovely specimen with only tiny portion of collar line not full and a few of eagle’s breast feathers not full. <b>ONLY 2493 STRUCK COMPARED TO 4941 STRUCK OF THE ABOVE B-1 VARIETY</b> (TYPE? Some call it a variety; others call it a “type” due to different star arrangement). Surely this rarity worth closer to .....	3,500.00
1231—1798 “TRANSITIONAL”, <b>NEW OBERSE WITH 13 STARS</b> (it was impractical to add star for each new state so 13 was determined to denote original 13 states) <b>combined with old SMALL EAGLE reverse of 1797</b> (new type reverse not ready until later) <b>B-1 variety. Near Uncirculated with lovely patina</b> , typical “mint equalization lines” visible when closely examined with glass (done at mint to bring planchet down to proper weight, thereby saving the cost of melting and recoinng). <b>As Scott Catalogue states “Extremely Rare In Unc.”.</b> If this coin were uncirculated, it would be worth upwards of \$2,500; since it is close but not quite that choice ,it should be worth at least half.

## TYPE DOLLARS — CHOICE (Cont.)

- 1232—1798 B-21, OBVERSE 13 STARS, NEW HERALDIC EAGLE REVERSE, variety with **ONLY 10 ARROWS** and an extra “stick” (VERY RARE) virtually **UNCIRCULATED**, only barest friction, lovely patina! The “commonest” 1798 variety catalogs unc. \$1,000 which would make this much rarer variety worth at least \$1,500 unc; this choice specimen worth proportionately.
- 1233—1803 B-6, Large 3, virtually **UNCIRCULATED**, only barest friction, Superb golden luster! Catalogs unc. .... 1,000.00
- 1234—1836 Gobrecht’s famous **FLYING EAGLE** design (said to be the most beautiful of the U.S.) no stars obverse, stars on reverse, plain edge, **GLITTERING BLUISH GOLDEN, SHARP STRUCK WIRE EDGE!** A magnificent specimen, the choicest we can recall seeing in recent years. Close examination with a glass reveals that what appears to be a fine die crack in field is actually a faint old hairline which has over the years been subdued by this **SUPERB** coloring. In this remarkable state of preservation, this popular “type” is easily worth over ..... 3,000.00
- 1235—1841 **LIBERTY SEATED, NO MOTTO**, acquired as “**PROOF—EXT. RARE**”. A difficult coin to evaluate. Our studies over the 40 years we have been professionals leads us to the conclusion that both “Originals” and “Restrikes” were made as was the case in the Half Cents. Why the various reference works do not make this distinction, your guess would be as good as ours. This particular specimen has **COMPLETE PROOF SURFACE BOTH SIDES, SHARPNESS OF STRIKE** and other characteristics generally associated with proofs. It does not have the broad “square edge” of the restrikes made in the style of later years (1860’s, etc.). This does not rule out the possibility that it is an “Original” **PROOF** made in 1841 rather than in later years (as the case in the restrikes). It is a lovely **GLITTERING BLUISH GOLDEN with COMPLETE PROOF SURFACE BOTH SIDES!** The Guidebook, as well as the 2 years-old Scott lists “**PROOF**” at \$1,000.00. If this were a “Restrike” with “square” edge, and part of our regular stock, we would not hesitate to price it \$1,500.00. What it is actually “worth”, properly described, your guess would be as good as ours.
- 1236—1853 “**Bearded Chin**” variety (THE FIRST SUCH WE CAN RECALL SEEING IN OUR 40 YEARS AS PROFESSIONAL NUMISMATISTS) **Brilliant slightly golden UNCIRCULATED, SHARP STRUCK!** Close examination with a glass reveals a pinpoint edge nick. **RARE DATE AS MOST WERE MELTED**, having more bullion value than face value. We note a page ad by a leading Maryland dealer in the April 12 Coin World for the regular 1853 unc. at \$449.50; surely this choice specimen of this rare variety worth over ..... 750.00
- 1237—1859-O Uncirculated bluish golden, usual strike. Cat. \$150 but one in Stack’s May sale brought ..... 205.00
- 1238—1859-S Uncirculated with deep blue patina, usual “bag-marks”. Close examination with glass reveals faint rub. **SCARCE**. Catalogs ..... 350.00
- 1239—1860 **BRILLIANT** slightly golden **GEM PROOF!** The demand for a “choice no motto proof dollar” is such that we believe this exceptional specimen will bring around ..... 500.00
- 1240—1866 **WITH MOTTO, BRILLIANT BLUISH GOLDEN WIRE EDGE GEM PROOF!** What more need be said. As “first year of type”, as well as its remarkable state of preservation, we believe the demand is such that this lovely specimen will bring close to ..... 600.00
- 1241—1870-CC Virtually Uncirculated, only barest friction. Popular “first year of CC mint”. Catalogs unc. .... 525.00
- 1242—1881 **BRILLIANT** slightly golden, **RAISED EDGE, WIRE EDGE GEM PROOF!** Again, the demand for “exceptional specimens” is such that we believe this beauty will bring around ..... 300.00
- 1243—1874 **TRADE DOLLAR, GLITTERING GOLDEN WIRE EDGE GEM PROOF! RARE THUS.** ..... 500.00

1244—1875-CC Near Uncirculated, tiny nick. Catalogs unc. ....	200.00

## TYPE \$3 GOLD — CHOICE (Cont.)

1270—1874 **BRILLIANT UNCIRCULATED WITH WIRE EDGE!** A lovely specimen in strong demand for "type". We would not be surprised to see this choice specimen exceed ..... 550.00

1271—1887 **BRILLIANT WIRE EDGE GEM PROOF! A FANTASTIC SPECIMEN AS PERFECT AS THE DAY IT WAS STRUCK!** The demand for such a specimen is so strong today that we would be surprised if it didn't exceed 2,000.00

## TYPE \$5 GOLD — CHOICE

1272—1795 **SMALL EAGLE, virtually Uncirculated, only barest friction.** (probably the old-time "cabinet friction" from reposing in several coin cabinets over the many years since it was struck). A lovely specimen in strong demand for "type". Catalogs E.F. \$2,100 & unc. \$2,800; this choice one worth close to ..... 2,500.00

1273—1798 **8X5 STARS, LARGE HERALDIC EAGLE, Small 8 (Breen obv. 6) with date 1 7 98 & 8 distant from bust, Uncirculated with some prooflike surface (reverse),** close examination with glass reveals faint rubbing on obverse. A lovely specimen of this RARITY! Listed in "Early U.S. Half Eagles" by Breen as "Rarity 5, I doubt if it will quite reach the R-6 level, but it is definitely rare". Compare this with Rarity 3 for the Large 8, 13 star reverse which catalogs \$1,500.00. Surely with the increase in number of knowledgeable collectors, this rarity will rise to its proper level of value.

1274—1806 **STARS CHANGED TO 7X6, round top 6, UNCIRCULATED WITH CONSIDERABLE PROOFLIKE SURFACE!** A choice and lovely specimen of this popular "type". \$1,000 was paid for this beauty some years ago; the demand for "Exceptional Specimens" is now such as to lead us to expect it will bring closed to ..... 1,500.00

1275—1812 **CAPPED BUST, DIF. EAGLE SHARP OBERVERSE** die combined with reverse not having eagle's claws fully struck up. A lovely specimen acquired some years ago at \$750; present value ?

1276—1813 **NEW TYPE LARGER BUST, Uncirculated but close examination with glass reveals faint rub. RARE & POPULAR.** Catalogs low at only ..... 825.00

1277—1834 **REDUCED SIZE, NO MOTTO, plain 4, acquired as "PROOF".** It does have **COMPLETE PROOF SURFACE BOTH SIDES with HIGH RAISED EDGE BOTH SIDES & IS REMARKABLY SHARP STRUCK!** We believe this had "Special Care" given to its manufacture but since the "depth" of the proof surface is not quite the equal of that in proofs struck in the 1860's, we would prefer to call it a "Presentation Piece Strike" or "Specimen Strike". Regardless of what term is used to describe this "Exceptional Specimen", its shimmering beauty would be hard to duplicate. Close examination reveals pinpoint edge nick. Acquired at \$1,000 some years ago; present value ?

1278—1838-C **Mint Mark on Obverse Above Date, very fine & sharp. RARE.** Catalogs ..... 400.00

1281—1841-C **Mint Mark on Reverse Below Eagle, near Uncirculated, traces of luster, usual "bag-marks".** Catalogs low unc. at only ..... 350.00

KEEP INFORMED --- PRICE LIST ONLY \$1.00

1282—1843	LARGE (medium-size) DATE, LARGE EAGLE & LARGE LETTERS, acquired as "PROOF". It does have PROOF SURFACE BOTH SIDES but appears to have been cleaned some years ago., and has a pinpoint edge nick. The "\$500" appearing on the envelope does not seem to be "out of line" for such a specimen.	
1283—1845-D	Extremely fine. Catalogs .....	150.00
1284—1855-D	LARGER DATE, Extremely Fine (soft struck center curl & eagle's neck feathers), traces of luster. The Miles specimen (Stack's Oct. 1968—"A.U. lightly burnished, characteristic soft strike in center of coin. In upper grades, such as this, the coin is very scarce") realized \$380; surely this one nearly 4 years later should bring very close, if not actually as much.

1296—1852	LARGER DATE, NO MOTTO, PROOFLIKE with WIRE EDGE! A RARITY IN THIS REMARKABLE CONDITION! The demand for this type in "Exceptional Condition" is so strong that we would not be surprised to see it realize in the neighborhood of .....	500.00

## PROOF \$20 GOLD — CHOICE

1316—1881 “BRILLIANT PROOF, PERFECT, ONLY 40 STRUCK”. Now, approaching a century since it was struck, how many can still be in existence, especially in this pristine state? This remarkable specimen was acquired about 6 years ago at \$5,100; surely it should now be even more desirable.

1317—1904 “BRILLIANT PROOF, GEM, ONLY 98 STRUCK”. We wonder how many of these still survive after 68 yaers, especially in this choice state of preservation. We note the present Guidebook value of \$2,400.00 has been unchanged from the 19th Edition through the present 26th Edition, a period of 8 years! Surely one does not have to be particularly astute to take advantage of such a situation.

## 1852 \$50 GOLD OCTAGON-SHAPE

1318—1852 UNITED STATES OF AMERICA FIFTY DOLLS. around eagle holding ribbon & “Augustus Humbert United States Assayer Of Gold California” around outer edge, “target” reverse, Extremely Fine & Sharp with much Luster. Far superior to most of the few specimens seen during our 40 years as Professional Numismatists. **AT LEAST 10 TIMES AS RARE AS THE 1851 HUMBERT!** Easily worth over ..... 3,500.00

## GOLD COINAGE OF THE BECHTLERS — CAROLINA

Rutherfordton, North Carolina (location of the “private” mint) was the principal source of gold in the U.S. from 1790 to 1840. Coins were struck 1830 to 1852. The present strong interest in gold seems to have “spilled over” into the “Private & Territorial Gold”.

1319—ONE DOLLAR CAROLINA, 28 gr., “N” reversed, Uncirculated with attractive patina. Acquired a decade ago at \$250; the Scott Catalogue price (2 years old) of \$275 seems a bit conservative; the Guidebook price of 8 years ago is still the same (is this a reflection of how seldom it is offered in this state of preservation?) Surely this desirable coin is now worth over .....	350.00
1320—ONE DOLLAR N. CAROLINA,, 28 gr., WITHOUT STAR, virtually Uncirculated, only barest friction, much luster, tiny “test-mark” at edge. RARE! Acquired 6 years ago when it was valued \$650; UNCHANGED IN GUIDEBOOK FOR LAST 8 YEARS. Surely this rarity now worth over .....	800.00
1321—\$2.50 CAROLINA, 70 gr., 20 carats, an amazing “PROOF SURFACE, UNCIRCULATED” specimen which must be seen to be believed. The \$1,500 on it 6 years ago now seems conservative in this era of “Exceptional Prices” for “Exceptional Coins”. Present value?	

- 1322—5 DOLLARS C. BECHTLER, 134 gr., 21 carats, near Uncirculated with much luster (Scott states "worn die"). An unusually choice specimen of this variety. Surely it should now exceed the \$500 value given it 6 years ago.
- 1323—5 DOLLARS A. BECHTLER, 134 gr., 21 carats, interesting die break, extremely fine & sharp with traces of luster. \$495 Price tag on it goes back to 1965.

## CALIFORNIA PRIVATE GOLD COINAGE

- 1324—1849 N.G. & N. (NORRIS, GRIEG & NORRIS) HALF EAGLE, plain edge, an amazing "GEM PROOFLIKE" specimen with RAISED WIRE EDGE! Acquired 1964 with a \$2,500 price tag on it. Present value ?
- 1325—1849 MOFFAT & CO., Extremely Fine, variety with broken dies. The present catalog value is only \$400, an advance of \$25 in a period of 8 years (19th to 26th Edition Guidebook). In 1964, when this was acquired, it was valued \$450; surely it should now be worth more?
- 1326—1850 MOFFAT, crude dies variety with die break reverse, very fine. The Guidebook value HAS BEEN UNCHANGED FOR THE LAST 8 YEARS! The current strong interest in gold leads us to believe this will bring around ..... 450.00
- 1327—1849 MASSACHUSETTS & CALIFORNIA CO. FIVE D., from March, 1965 Kreisberg-Schulman Waldorf Auction described "shield supported by a bear and stag, a cowboy, FIVE D., copper, about very fine. Adams knew of only one specimen of this variety. This specimen is without the edge bruises which was on the one in our March, 1964 auction. That one realized \$700; this one should realize in excess of (\$1,000.00)." It brought \$900; 7 years later this rarity should surely bring over ..... 1,250.00
- 1328—1850 BALDWIN & CO. FIVE DOL., very close to UNCIRCULATED with only barest friction! Rare in any condition but EXTREMELY RARE SO CHOICE! In this remarkable state of preservation, it is easily worth ..... 2,500.00
- 1329—\$2½ 1851 SAN FRANCISCO STATE OF CALIFORNIA, lot 1530 of May, 1966 Kreisberg-Schulman Auction described "Obverse, Liberty head with LIBERTY on band, 13 stars, brilliant, Prooflike. Adams assigns it no 79 and states it was struck in silver. This one is gold plated. A large Eastern firm advertised a silver specimen some time ago at \$475.00 and stated ONLY 7 OR 8 PIECES KNOWN TO EXIST. Worth (750.00)." Probably now it is worth closer to ..... 1,000.00
- 1330—1852 WASS/ MOLITOR & CO. TEN D., Large Head with pointed bust, typical strike (as on all we have seen over the years) from dished dies resulting in this Extremely Fine specimen having some flattening of a few stars near the edge and the reverse having the appearance of very fine. The rather similar condition Walton specimen (Stack's 1963 auction) brought \$740; this one now probably worth closer to ..... 1,000.00
- 1331—1855 WASS, MOLITOR & CO. TWENTY DOL., small head, very close to "UNCIRCULATED" with some luster, fewer than the usual "handling marks". A GREAT RARITY SO CHOICE! Neither the Guidebook nor Scott attempt to price it above very fine due to its rarity in this remarkable state of preservation. Acquired over 5 years ago when it was valued \$3,500; could now exceed ..... 4,500.00

## \$50 1855 WASS, MOLITOR & CO.

**1332—1855 WASS, MOLITOR & CO., Extremely Fine** (usual minute handling marks characteristic of these large, soft and heavy gold coins). Superior to most we have seen over the years! Popular as the **"only obtainable round \$50 gold"** (the \$50 round Kellogg would probably bring \$35,000 to \$50,000 if one came upon the market today). UNCHANGED IN GUIDE-BOOK THE LAST 8 YEARS! This specimen acquired over 7 years ago as "About Uncirculated" at \$5,900.00. Present value in this gold conscious market ?

## \$1/4, \$1/2, \$1 CALIFORNIA GOLD

Quite popular as "the most reasonably priced private gold coins". The Guidebook has reflected this increased interest by revising this section and adding additional major "types". We believe this section should again be enlarged to include additional "types". (B-6) refers to Burnie's book "Small California And Territorial Gold Coins" published 1955.

1352—\$½ ROUND, 1853 (rev.), Liberty head with "D.N." below, "HALF DOL. CALIFORNIA GOLD", Uncirculated (B-28). Valued double "common" varieties or	90.00

## LESHER REFERENDUM DOLLARS COMPLETE TYPE SET ("BANK TYPE", ETC.)

Struck by Joseph Leshner in 1900 and 1901 at Victor, Colorado. Used in trade by a number of merchants who redeemed them in goods. The 1901 type had a blank space at bottom where businessmen who bought them had their name stamped and coins were numbered. Since their inclusion in the Guidebook some years ago, their popularity has increased. Several seem to be somewhat undervalued (particularly in the higher states of preservation) in keeping with their rarity and present strong demand.

**1384—1900 FIRST TYPE** (no business name), **PROOFLIKE BLuish LUSTER!**  
Only 100 struck 72 years ago. **Said to be Rarity 6 (13 to 30 known)** — **another authority says "1½ to 2 dozen"**. Most of the few specimens we have seen in our 40 years as professional numismatists have shown varying degree of circulation. **A rarity so choice!** Acquired 8 years ago at \$610; could now bring closer to ..... 1,000.00

**1385—1900 SECOND TYPE** with **A.B. BUMSTEAD & SCROLLS** at sides of monogram, popular design with mining scene and mountains, rather close to "Uncirculated" with only slight friction. Catalogs unc. .... 400.00

**1386—1900 UNIQUE VARIETY** of Second Type, **"LIFE SAVING MEDAL For Ben FROM CREW OF 1900"** in place of "A B. BUMSTEAD, ETC." below mining scene, virtually Uncirculated, only barest friction. Acquired 8 years ago at \$1,125; surely this **UNIQUE** variety now worth over ..... 1,500.00

**1387—1900 THIRD TYPE, A. B. BUMSTEAD** but **NO SCROLLS**, the type most generally available. A **FANTASTIC SPECIMEN! SHARP STRUCK WITH RAISED BORDERS & WIRE EDGE, LOVELY BLUE PROOFLIKE SPECIMEN!** If not actually the **"FINEST KNOWN"**, then surely its equal as we can not recall ever seeing a choicer one in all our 40 years as professional numismatists. Cost \$455 some years ago when Leshers were selling at somewhat less than present values. Easily now worth over ..... 750.00

**1388—1900 FOURTH TYPE**, The Famous **"BANK TYPE"** which has **"WILL GIVE CASH AT ANY BANK"**. The Government seized the dies and "coins" when this was struck — too close to actual coins. The Guidebook lists (**"5 KNOWN"**). **"BY FAR, THE MOST WANTED OF ALL THE LESHERS"**. This is a lovely specimen, being very close to Uncirculated with only slightly friction, tiny edge nick. **THE GUIDEBOOK LISTS 4 MAJOR TYPES OF 1900 plus 1901 TYPE** (divided into "no name" & "various names" major varieties). The "Bank Type" is the "Rembrandt" of the Leshner "types" and it is indeed an occasion (comparable to the offering of an 1804 dollar, 1913 Liberty Nickel, etc.) when a specimen comes upon the market.  
This specimen appeared on the market in 1964 (8 years ago) when it sold for \$4,250.00. The market for outstanding rarities since then has advanced substantially (1804 Dollar sold at \$77,500.00 in 1970; another specimen appeared nearly a year ago at \$100,000.00. 1913 Liberty Head Nickel sold at \$46,000.00 in 1967; another specimen appeared nearly a year ago at \$100,000.00). Based on these (as well as other records) it would appear that this "BANK TYPE" Leshner Dollar should now be "worth" about double its cost of \$4,250.00 over 8 years ago.

**1389—1901 IMPRINT TYPE, No Name**, a new type with reduced size, weight & value (\$1.00 compared to \$1.25 for 1900 types). Very close to Uncirculated with only slight friction, lovely patina. **Variety without period after number. "About 50 or so struck or sold; perhaps 1½ to 2 dozen may still exist"**. With each passing year, the possibility of some being lost or destroyed (fire, flood, etc.) increases. The Guidebook lists the "no name" with period at \$450 unc.; this rarer **"no period" & "no name" variety** worth over ..... 550.00

**LESHER REFERENDUM DOLLARS (Cont.)**  
**COMPLETE TYPE SET ("BANK TYPE", ETC. (Cont.)**

- 1390—1901 WITH "J. M. SLUSHER, CRIPPLE CREEK, COLO." IMPRINTED. A lovely bluish Prooflike specimen. The Guidebook lists "Imprint Type, various names" at \$350-\$1,500 unc.; this remarkable specimen probably worth ..... 750.00

- 1402—1861 HALF DOL., restrike by J. W. Scott & Co. in 1879, the Confederate die is as sharp and choice as any we can recall seeing in our 40 years as professional numismatists (it is marked "Finest Known"). See under \$5 heading for SIX TYPES explanation. MANY "SLEEPERS" EXIST AS WE DO NOT KNOW THE EXISTENCE OF ANY COMPLETE SETS. The determining factor in values is not only the amount printed but how many survive today. Some with relative large printings are seldom offered.

For years we have counseled and helped advise those wishing to acquire coins and currency as an investment. We define investors as those willing to adopt a program envisioning a minimum of several years. Suffice to say — that in our **thirty-nine years as professional numismatists** the results have been most gratifying.

We believe the various reference books are excellent guides — But **ONLY THAT**. We doubt if an intelligent person would attempt to become his own "lawyer" after reading a law book, or give himself medical treatment after reading a medical book.

Why then would an intelligent collector, who devotes himself part-time to numismatics, feel he would be as well equipped to give the best answers in building a numismatic investment as part of his estate, compared to a **PROFESSIONAL WHO HAS DEVOTED OVER A THIRD-OF-A-CENTURY TO THE STUDY AND RESEARCH OF NUMISMATICS AS A FULL-TIME PROFESSION**.

The very nature of this type of **PERSONAL COUNSELING** (A. M. or Paul Kagin) precludes it becoming a widely offered service. We are prepared, at this time, to continue offering this service to an additional few discriminating collectors as replacements for the normal attrition which has transpired during the past year.

We feel the experience gained in cataloging over 295 sales (a record that speaks for itself) enables us to offer the ultimate in counseling service.

The relationship with our clients is (as has always been our policy) of a fiduciary and confidential nature.
